HOPE STARTS HERE.

Hope Grows Together.

Because Hope Changes Everything.

Hope is more than a feeling. It's having someone answer the phone when you don't know where to turn. It's finding treatment when cost stands in the way. It's having someone walk beside you through recovery. It's learning how to recognize when a friend, coworker or loved one needs help.

Throughout Kenosha County, Hope Council meets people where they are, providing practical, judgment-free substance use support, prevention education, treatment navigation, recovery resources and opportunities for community connection.

But making hope accessible takes more than good intentions. It takes a community willing to invest in it.

In 2027, we're inviting individuals, families and businesses to make one meaningful commitment that supports Hope Council's work throughout the year.

Your investment can help someone access treatment, connect with a Certified Peer Support Specialist, receive lifesaving resources, participate in Mental Health First Aid training or discover a community where recovery is supported and celebrated.

One Commitment. A Year of Impact.

COUNTLESS REASONS FOR HOPE.

One Commitment. Multiple Ways to Make a Difference.

Through our annual sponsorship program, Hope Partners can support multiple programs, services and community events with one annual investment.

Partners can identify the areas most meaningful to them while helping Hope Council respond to emerging needs throughout Kenosha County.

Monthly and quarterly payment options are available, making it easier to spread your commitment throughout the year.

Whether you're a business looking to strengthen your community impact, a family honoring someone you love or an individual who believes in the power of recovery, there's a place for you in our community of hope.

Hope starts with one person. It grows when we come together.
